

ReForesters Check

Name *(First Last)**

Plantation Name*

Date* *Enter the date you performed this check.*

Start Time* *Enter the time you made your initial rating.*

Initial Rating *(circle one)**

Rate the plantation as you found it, not after remedial actions.

Good - Fewer than 25% of trees and cages have no to few choking weeds, cages upright and solidly staked.

Poor - 25-50% of trees and cages damaged or covered by choking weeds.

Failing - Greater than 50% of trees are dead or highly stressed/more than 50% of cages are damaged in a way that compromises tree health.

Initial Rating Details *(if poor or failing)**

Clarifying Pictures *(optional)*

For each picture, note the following.

Caption* Why did you take this picture?

Image Coordinates* Mark the approx. location picture was taken on a paper map to transfer later.

** Marked fields are required for form submission*

Tree Care and Count

Care for all trees in cages, tubes, or marked with vinyl tape.

- 1. Clear competing veg and debris from tree and immediate area.*
- 2. If cage and tree are crushed or leaning, gently try to straighten and restake. If tree resists straightening, restake cage to accomodate lean.*
- 3. Mark completed trees with flag. Collect flags after site maintenance and tally in the categories below.*

of Alive Plantings *Includes trees found in poor condition but with chance of recovery.*

of Dead or Missing Plantings

Take picture and mark location of dead/missing planting to help relocate and replace during planting season. Attach flagging tape to cage/tube to mark as already reported. Marked cages and tubes should be skipped during next check.

of Volunteer Trees

Care for previously marked saplings first. As time permits, tally and flag additional unprotected (likely naturally regenerated) native or unidentified saplings 1 ft or taller.

Final Rating (Circle one)*

Rate the plantation as you left it.

Good Poor Failing

Final Rating Details*

Describe remedial actions taken and any issues that need further attention. If none needed, enter N/A.

End Time* *Enter the time you finished your data collection and maintenance.*

** Marked fields are required for form submission*
